Figure 1. Treatment Algorithm—The Chronic Disease Management Model for Primary Care of Patients with Overweight and Obesity*

*This algorithm applies to the assessment of overweight and obesity and subsequent decisions based on that assessment. Each step (designated by a box) in this process is reviewed in this section and expanded upon in subsequent sections.

†BMI cutpoint determined by the FDA and listed on the package inserts of FDA-approved obesity medications.

BMI indicates body mass index; CVD, cardiovascular disease; and FDA, Food and Drug Administration.

**** The algorithm can be found on page 18 of the 2013 AHA/ACC/TOS Guideline for the Management of Overweight and Obesity in Adults guidelines. The steps in the algorithm have designated boxes, which are reviewed in the subsequent pages following this algorithm****
