Optima Health is closely monitoring the spread of the coronavirus (COVID-19) in the United States and its presence in Virginia. We have enacted our robust emergency management protocols and our dedicated team is on standby to monitor and follow COVID-19 closely in Virginia and North Carolina.

About COVID-19:

What is the novel coronavirus (COVID-19)?
According to the Centers for Disease Control and Prevention (CDC), the novel coronavirus is a new coronavirus that has not been previously identified.

What are the symptoms?
Coronavirus disease 2019 (COVID-19) symptoms include mild to severe respiratory illness with fever, cough, and difficulty breathing.

Is there anything I can do to prevent the spread of the virus?
• Wash your hands often with soap and water for at least 20 seconds.
• If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol.
• Cover your cough and sneeze with a tissue, which you should discard in the trash.
• Stay home when you are sick.
• Use an approved telehealth option or see your doctor if you think you are ill.
• Avoid close contact with people who are sick.
• Avoid touching your eyes, nose, and mouth.
• Clean and disinfect frequently touched objects and surfaces.

What Optima Health benefits will cover
Any out-of-pocket member costs associated with COVID-19 diagnostic testing at any in-network lab locations for all commercial, Medicaid, or Medicare Advantage members are covered in full. Telehealth visits are free to members through June 4, 2020 with our in-network care partners MDLIVE® and Sentara Medical Group.

What to do if you have symptoms
If you or your family members are experiencing symptoms similar to a common cold or flu and think you may have been exposed to COVID-19, please contact your primary care physician or our telehealth partner, MDLIVE, by signing in to your secure member portal.
