(continued on next page)

CLINICAL CRITERIA: Check applicable box(es) below. The criteria **MUST** be met to qualify. If **not** checked, authorization process will be delayed.

- IgG level <500 mg/dL (*must submit copy of lab results from past 6 months*) **AND** medical documentation showing recurrent infections and a concurrent diagnosis as above

AND

- Documented abnormal response to streptococcal vaccines (ie, 4 fold increase in titers) to protein and polysaccharide antigens. (*must submit copy of documentation of administration as well as streptococcal vaccine laboratory titer results at least 4 weeks after administration*)

OR

FOR CONTINUATION OF THERAPY

- Documented history of humoral or combined immunodeficiency with claims for IVIG (must submit documentation showing paid claims for IVIG)

AND

- Patient cannot use IVIG due to poor venous access **AND** patient/primary caretaker able to self-administer (*should not be administered by a home health nurse beyond 1st month*)
- Submit chart notes documenting reason for patient being unable to self-administer and still requires subcutaneous immunoglobulin

****Use of samples to initiate therapy does not meet step edit/ preauthorization criteria.****

Previous therapies will be verified through pharmacy paid claims or submitted chart notes.
